

ABODE SERVICES

Because everyone should have a home.

ORGANIZATION SUMMARY

Abode Services believes that everyone should have a home. Since our founding in 1988, Abode has grown from a small organization sheltering a few dozen people in Fremont, California, to a \$29 million agency offering innovative, successful housing and services for more than 4,400 adults and children in Alameda, Santa Clara, San Mateo and Santa Cruz counties each year.

Over the course of this growth, we have become a nationally recognized leader in evidence-based approaches to ending homelessness for those most in need, including Housing First, rapid re-housing, and supportive housing. We administer more than \$14 million in rental assistance each year, partnering with local cities and counties to place vulnerable people experiencing homelessness into housing, and help them maintain that housing by connecting them to supportive services.

The success of our approach shows in our program outcomes and effectiveness in helping people out of homelessness: on a given night, our programs maintain approximately 2,000 adults and children in housing, helping them avoid a return to homelessness.

NUMBERS SERVED ANNUALLY

4,400 adults and children

OUTCOMES

2,000 individuals housed on a given night, instead of being homeless

5,074 individuals placed into permanent housing since 2010

FUNDING SOURCES

Abode Services receives funding from multiple government sources, including federal (HUD and the VA), state (California) and local (Alameda and Santa Clara counties, the cities of Fremont, Oakland, Hayward, Livermore, and Sunnyvale, among others); private foundations and corporations, including the Sobrato Family Foundation, Wells Fargo, and Kaiser Permanente; and gifts from individual donors.
